RESOLUTION NO. 2005- 160

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF HOLLISTER
ADOPTING THE 2005-2023 HOLLISTER GENERAL PLAN**

WHEREAS, the City of Hollister desires to maintain a General Plan that complies with the mandatory requirements of the California Government Code (Section 65300 et seq) and covers the topics of land use, housing, circulation, open space, conservation, recreation, and noise; and,

WHEREAS, the General Plan represents the most direct expression of local control, setting forth the community's Vision for the future of Hollister and the means to accomplish that Vision; and,

WHEREAS, in 2003 the City Council of the City of Hollister initiated preparation of a comprehensive update of the long-term general plan for the physical development of the city and planning area pursuant to California Government Code Section 65300 et. seq.; and,

WHEREAS, City staff and consultants held 2 visioning sessions, then the General Plan Steering Committee reviewed and considered background documents relevant to the preparation of the Draft Hollister General Plan, including Preliminary Drafts for Land Use, Housing, Circulation, Noise, Safety and Open Space; and,

WHEREAS, full public involvement in the preparation of the Draft General Plan Revision has been ensured through duly noticed Steering Committee Study Sessions, community meetings, Planning Commission meetings, public hearings and other means; and,

WHEREAS, the Steering Committee held 7 duly noticed study sessions on the "Working Draft" General Plan and the Planning Commission hosted 3 duly noticed workshops on the "Draft" General Plan; and,

WHEREAS, the City has maintained the General Plan on the City of Hollister web site, providing online access to public forum dates, documents, maps, and other information, and the opportunity to provide comments and suggestions; and,

WHEREAS, the Draft General Plan has been referred to other public agencies for review and comment as required by State law; and,

WHEREAS, on October 27, 2005, the Hollister Planning Commission conducted a public hearing on the General Plan as required by State law and, by a 5-0 vote, recommended to the City Council the adoption of the General Plan; and,

WHEREAS, a comprehensive Final Environmental Impact Report (EIR) on the General Plan has been prepared by the City and certified by the City Council; and,

WHEREAS, the City Council has determined that the Final Environmental Impact Report provides a complete and adequate assessment of the potential impacts of implementing the General Plan; and,

WHEREAS, the City Council has adopted a Statement of Overriding Considerations which states the City's reasons for accepting various significant and unavoidable environmental impacts resulting from implementation of the General Plan; and,

WHEREAS, on November 21, 2005, the City Council conducted a public hearing to receive and consider testimony on the proposed General Plan; and,

WHEREAS, on November 21, 2005 the City Council closed the public hearing, deliberated and determined to accept the Planning Commission recommendation with the changes contained in the Errata and with an additional change to Map 6 (Phasing Strategy).

NOW, THEREFORE, BE IT RESOLVED that the City Council of the City of Hollister hereby adopts the 2005-2023 Hollister General Plan (Exhibit 1) and directs staff to make all final changes contained in the Errata (Exhibit 2) and make copies available to the public.

PASSED AND ADOPTED at a regular meeting of the City Council of the City of Hollister on the 5th day of December, 2005 by the following vote:

AYES: Council Members Emerson, Valdivia, Pike, Johnson and Mayor Scattini
NOES: None.
ABSTAIN: None.
ABSENT: None.

RESOLUTION NO. 2005-159

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF HOLLISTER
CERTIFYING A FINAL ENVIRONMENTAL IMPACT REPORT FOR THE 2005-2023
HOLLISTER GENERAL PLAN AND MAKING FINDINGS OF OVERRIDING
CONSIDERATIONS RELATING TO THE MITIGATION MEASURES AND PROJECT
ALTERNATIVES, AND ADOPTING A MITIGATION MONITORING AND
REPORTING PROGRAM**

WHEREAS, in 2003 the City Council of the City of Hollister initiated preparation of a comprehensive update of the long term general plan for the physical development of the city and planning area pursuant to California Government Code Section 65300 et. seq.; and,

WHEREAS, the City of Hollister, in accordance with the requirements of the California Environmental Quality Act (CEQA), the State CEQA Guidelines adopted by the Secretary of Resources, has caused to be prepared an Environmental Impact Report which analyzes the impacts of the proposed project (SCH # 200481147); and,

WHEREAS, a Notice of Preparation was released for public and agency review and comment on March 31, 2004 and a public scoping meeting to receive comments on topics and issues which should be evaluated in the Draft EIR was held by the City on April 9, 2004; and,

WHEREAS, the City of Hollister distributed a Notice of Availability for the 2005-2023 General Plan Draft EIR on August 8, 2005, which started the 45-day public review period, ending on September 21, 2005; and

WHEREAS, the Draft EIR was also submitted to the State Clearinghouse for state agency review; and,

WHEREAS, the Planning Commission of the City of Hollister held a duly noticed public hearing on August 25, 2005, to solicit public comment on the Draft EIR for the 2005 Draft General Plan; and,

WHEREAS, following the close of the 45-day public review period for the Draft EIR on September 21, 2005, the Planning Commission held a duly noticed public hearing on October 27, 2005 and recommended certification of the Final EIR and adoption of the 2005-2023 General Plan to the City Council of the City of Hollister; and,

WHEREAS, the City Council of the City of Hollister held a duly noticed public hearing on November 21, 2005 to consider the Final EIR for the 2005 Draft General Plan; and,

WHEREAS, the City Council of the City of Hollister reviewed all evidence presented both orally and in writing and intends to make certain findings in compliance with CEQA, which are more fully set forth below in Exhibit A, attached hereto and incorporated in its entirety by this reference;

NOW, THEREFORE, BE IT RESOLVED by the City Council of the City of Hollister as follows:

DUPLICATE OF ORIGINAL
ON FILE IN THE
OFFICE OF THE CITY CLERK
CITY OF HOLLISTER

1. Certification of the Final EIR

- A. The City Council of the City of Hollister hereby certifies that the Final EIR has been completed in compliance with the requirements of the California Environmental Quality Act.
- B. The City Council of the City of Hollister hereby certifies that the Final EIR was presented to the City Council and that the City Council reviewed and considered the information contained in the Final EIR prior to taking action on the Project.
- C. The City Council of the City of Hollister hereby certifies that the Final EIR reflects the independent judgment and analysis of the City Council of the City of Hollister.

2. Findings on Impacts

The City Council finds:

- A. The EIR identifies seven (7) potentially significant impacts that can be mitigated to less-than-significant levels. The City Council makes the findings with respect to significant impacts as set forth in Exhibit A, attached hereto and incorporated herein by reference.
- B. The EIR identifies seven (7) potentially significant impacts that cannot be mitigated to less-than-significant level and are thus considered significant and unavoidable. The City Council makes the findings with respect to these significant and unavoidable impacts as set forth in Exhibit A.

3. Findings on Alternatives

Three (3) project alternatives ("No Project/No Development" "No Project/1995 General Plan," and "Reduced Development,") were evaluated by the City of Hollister during project development and in the EIR. As set forth in the FEIR and Exhibit A, these alternatives result in more severe environmental effects, do not meet the basic project objectives, or do not provide any substantial environmental benefits as compared to the proposed Hollister General Plan. The City Council hereby finds that the proposed 2005-2023 Hollister General Plan, as mitigated by adoption of mitigation measures identified in the EIR, can be feasibly implemented and serves the best interests of the City of Hollister.

4. Statement of Overriding Considerations

Because the adoption of all feasible mitigation measures will not substantially lessen or avoid all significant adverse environmental effects caused by the project, the City Council adopts a Statement of Overriding Considerations concerning the project's unavoidable significant impact to explain why the General Plan's benefits override and outweigh its unavoidable impacts on the environment as set forth in Exhibit A.

5. Adoption of the Mitigation Monitoring and Reporting Program

- A. The City Council hereby finds that the proposed mitigation measures described in the Final EIR and Findings are feasible, and therefore will become binding upon the City and on future applicants. The Mitigation Monitoring and Reporting Program is included as Exhibit B and will involve incorporation of the mitigation measures into the General Plan.

B. The City Council hereby adopts the Mitigation Monitoring and Reporting Program, as set forth in Exhibit B, attached hereto and incorporated herein by reference.

6. Other Findings

- A. The City Council finds that issues raised during the public comment period and written comment letters submitted after the close of the public review period of the Draft EIR do not involve any new significant impacts or "significant new information" that would require recirculation of the Draft EIR pursuant to CEQA Guidelines Section 15088.5.
- B. Since completion of the Final EIR, the Planning Commission and City Council has modified the General Plan Land Use Map and policies contained in the General Plan. The modifications to the General Plan, contained in the Errata, would not result in any new significant environmental impacts, a substantial increase in the severity of an environmental impact or "significant new information" that would require recirculation of the Draft EIR pursuant to CEQA Guidelines Section 15088.5.
- C. The Council finds that the correction of a typo on the top of Page 6-11 of the EIR regarding Reduced Alternative population and housing impacts, correcting the reference from less-than-significant to significant unavoidable, is internally consistent with the Alternatives analysis shown in the Comparison of Alternatives Table 6.5.A page 6-16.

RESOLUTION NO. 2008-130

**A RESOLUTION OF THE COUNCIL OF THE CITY OF HOLLISTER
APPROVING GENERAL PLAN AMENDMENT 2007-1
(LONG REACH DEVELOPMENT CORPORATION – APN 057-023-013)**

WHEREAS, the City of Hollister desires to maintain a General Plan that complies with the mandatory requirements of the California Government Code (Section 65300 et seq) and covers the topics of land use, housing, circulation, open space, conservation, recreation, and noise; and,

WHEREAS, Long Reach Development Corp., ("the applicant") submitted an application to amend the General Plan Land Use designation map from High Density Residential to Mixed Use on the eastern 2.55 acres of a 8.51 acre San Benito County Assessor's Parcel Number 057-023-013 on February 15, 2007; and

WHEREAS, the Development Review Committee considerations were presented to the City Council in the City staff report; and,

WHEREAS, pursuant to City Council Resolution 97-288, at the April 26, 2007 City of Hollister Planning Commission and the May 7, 2007 City of Hollister City Council meeting a request to initiate a general plan map amendment was reviewed and the Commission and Council determined a request to change the General Plan Land Use designation on a 2.55 acre portion of Assessor Parcel Number 057-023-013 from High Density Residential to Mixed Use could be processed; and

WHEREAS, the City of Hollister Planning Division prepared an Initial Study and circulated a proposed Mitigated Negative Declaration, pursuant to the requirements of the California Environmental Quality Act (CEQA) for the project which determined that potential impacts may have significant effects but the applicant agreed to changes to the project or conditions that could reduce avoid or reduce impacts to a point where clearly no significant effects would occur; and,

WHEREAS, the City of Hollister Planning Commission recommended approval of General Plan Amendment 2007-1 to the City Council with Planning Commission Resolution 2008-22 at a duly noticed public hearing on July 24, 2008 where it considered all written and oral testimony both for and against the project, as well as information and reports contained in the record including all staff reports, the proposed mitigated negative declaration, written comments, mitigation monitoring and reporting program; and,

WHEREAS, the City of Hollister City Council conducted a duly noticed public hearing on August 18, 2008 to receive testimony on and consider the mitigated negative declaration and GPA 2007-1; and,

WHEREAS, at said hearing, the City Council heard and considered all written and oral testimony both for and against the project, as well as information and reports contained in the record including all staff reports, the proposed mitigated negative declaration, written comments, mitigation monitoring and reporting program and GPA 2007-1; and,

WHEREAS, after closing the public hearing, the City Council deliberated and determined to recommend that the City of Hollister City Council grant the applicant's request, and based on the facts as presented, and the code requirements as plainly stated.

WHEREAS, City Council considered and adopted the Mitigated Negative Declaration and Mitigation Monitoring and Reporting Program are in compliance with the provisions of the California Environmental Quality Act;

NOW, THEREFORE IT IS RESOLVED, that the City of Hollister City Council approves General Plan Amendment 2007-1 as shown on Exhibit A.

THE CITY COUNCIL MAKES THE FOLLOWING FINDINGS:

1. That the request for General Plan Amendment 2007-1 map amendment from High Density Residential to Mixed Use is consistent with the goals, objectives, policies and programs in the City of Hollister 2005-2023 General Plan;
2. This resolution shall take effect 30 days from approval of this resolution.

PASSED AND ADOPTED, this 18th day of August 2008, by the following vote:

AYES: Council Members Valdivia, Johnson, Sanchez and Mayor Emerson.

NOES: None.

ABSENT: Council Member Pike.

Exhibit A

RESOLUTION NO. 2008-153

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF HOLLISTER
APPROVING GENERAL PLAN AMENDMENT 2008-1**

WHEREAS, the City of Hollister initiated GPA 2008-1 to correct minor mapping errors or make clarifications to Maps 2 and 7, reduce the Home Office land use designation and to make minor amendments to Land Use and Community Design Element Implementation Program LU.J. and Housing Element Implementation Program H.D.c. that are included in Exhibit 1; and

WHEREAS, the City of Hollister, in accordance with the requirements of the California Environmental Quality Act (CEQA), the State CEQA Guidelines adopted by the Secretary of Resources, has determined that the corrections, clarifications and minor text amendments qualify for an Exemption to the California Environmental Quality pursuant to section 15061(3) Guidelines to the Environmental Quality Act because the corrections and map amendments will not have a significant effect on the environment; and

WHEREAS, the City of Hollister proposes minor text amendments to General Plan Land Use Community and Design Element Implementation Program LU.J and Housing Element Implementation Program H.D.c. which are included in Exhibit 1; and

WHEREAS, the City of Hollister has identified inconsistencies between existing developed residential, commercial and industrial development and the land uses summarized in Table 1 and shown on Attachment A of Exhibit 1 on Figure 2 of the General Plan Land Use Plan; and

WHEREAS, the General Plan did not identify programs for future reuse of the areas listed on Table 1 and shown on Attachment A of Exhibit 1 and it was not the intent of the City to establish the areas as non-conforming uses; and

WHEREAS, the City of Hollister desires to reduce the Home Office land use designation to avoid competition with existing commercial offices areas in downtown Hollister as shown on Attachment B of Exhibit 1; and

WHEREAS, the City of Hollister desires to clarify the boundary of the Mixed Use and General Commercial designation near McCray Street and Prospect Avenue as shown on Attachments C and C2 of Exhibit 1 and the West Gateway Special Planning Area near the Mission Oaks Mobile Home Parks as shown on Attachment D of Exhibit 1; and

WHEREAS, on September 25, the Planning Commission held a duly noticed public hearing to consider recommending to the City Council minor map amendments to ensure internal consistency between the General Plan and the draft zoning ordinance and for minor amendments to two implementation programs and recommended that the City Council approve GPA 2008-1 with Planning Commission Resolution 2008-27.

NOW THEREFORE IT IS RESOLVED as follows:

1. That pursuant to CEQA Guidelines section 15061(b) (3), it is determined that the proposed amendments to the City of Hollister General Plan Land Use Map 2, Map 7, Special Planning Areas and implementation programs LU.J and H.D.c. are not subject to CEQA in that it is clear that there is no possibility that the proposed amendments may have a significant effect on the environment.
2. The Council hereby finds that based on the whole record that there is no substantial evidence that the project will have a significant effect on the environment.
3. This Resolution will take effect in thirty days from date of adoption.

PASSED AND ADOPTED, this 20th day of October 2008, by the following vote:

AYES: Council Members Valdivia, Pike, Sanchez, and Mayor Emerson.

NOES: None.

ABSENT: Council Member Johnson.

RESOLUTION NO. 2009-49

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF HOLLISTER
APPROVING GENERAL PLAN AMENDMENT 2009-1**

WHEREAS, the City of Hollister desires to demonstrate to the California Department of Housing and Community Development that there is an adequate inventory of approved and vacant sites in residential and mixed use zoning districts with services available to meet the Regional Housing Needs requirements for the 2002-2008 Housing Element Program Period; and

WHEREAS, the existing inventory and technical information in Appendixes A and B of the adopted Housing Element do not reflect the acres of land that were rezoned to residential and mixed use zoning districts on the zoning map adopted or the zoning ordinance revisions adopted with Ordinance No. 1038 to implement the 2005-2023 City of Hollister General Plan; and

WHEREAS, the text changes proposed for General Plan Amendment 2009-1 which are included in Exhibit 1 updates the technical appendices to the General Plan Housing Element to reflect implementation of General Plan Housing and Land Use programs in compliance with Article 10.6 of the California Government Code; and

WHEREAS, pursuant to section 15306, Information Collection of the California Quality Act, the proposed General Plan Amendment 2009-1 is categorically exempt because the amendment does not alter any general plan policies and programs and merely summarizes data changes from the recently adopted Ordinance 1038; and

WHEREAS, the Planning Commission recommended approval of General Plan Amendment 2009-1 to the City Council with Planning Commission Resolution 2009-6.

NOW THEREFORE IT IS RESOLVED as follows:

1. That pursuant to CEQA Guidelines section 15306 the General Plan amendment is not subject to CEQA because the amendment does not alter policies and program and merely summarizes data changes from recently approved zone changes to implement the General Plan land use plan.
2. That the City of Hollister City Council hereby approves amendments to the General Plan Housing Element Appendixes A and B included with Exhibit A.
3. This General Plan amendment will become effective thirty days after the date of adoption of this resolution.

PASSED AND ADOPTED this 20th day of April 2009, by the following vote:

AYES: Council Members Valdivia, Emerson, Gomez and Mayor Sanchez.

The following text replaces the text in Appendix A, pages A.36 through A.43 of the City of Hollister General Plan and Appendix B

APPENDIX A-1

REGIONAL HOUSING NEEDS DETERMINATION

RHNA Allocations and Sites Inventory Submittal

The City of Hollister falls under the jurisdiction of, the San Benito County Council of Governments (San Benito COG). San Benito County COG uses a predominately demographic formula to allocate the regional housing needs among the incorporated cities (Hollister and San Juan Batista) and unincorporated county. This process results in a Regional Housing Needs Assessment (RHNA) and the number reflected in that assessment must be considered when the housing element is prepared.

Historically, Councils of Government (COG's) prepared RHNAs every five years according to a schedule prepared by the State. However, in 2004, the State legislature extended the 3rd revision Housing Element Update Cycle one year. The City submitted a Draft Housing Element to be reviewed by the State of California, HCD on March 30, 2004 and resubmitted a draft in March of 2008. A comment letter was received on June 16, 2008 from the California Department of Housing and Community Development (HCD). The letter raised an issue related to recently enacted Senate Bill 2133 (Florez). The new legislation stipulates that a local agency's inventory of sites to meet the 'new construction' requirement for Regional Housing Needs Allocations must rely on approved sites or sites that are zoned for residential use and available for construction. The sites inventory in Appendix B in the March 2008 submittal to HCD identified numerous sites that still needed to be rezoned to a residential land use. However, the Hollister City Council approved a revised Zoning Ordinance (Ordinance 1038) and accompanying map on December 15, 2008. The following discussion provides documentation that by rezoning sites in accordance with the General Plan residential densities and the default densities prescribed by the California Department of Housing and Community Development; the City has satisfied the requirement for zoned sites to meet the New Construction need in Table A22 below.

Income Group Goals

For purposes of this submittal, the City has taken into account the requirement to address the extremely low income category. The purpose of the income group goals is to ensure that each jurisdiction within a COG attains its share of the state housing goal without any relative disproportionate distribution of household income groups. The following household income groups are defined according to the HUD Median Family Income (MFI) and Income Limits Table: Extremely Low Income (generally less than 30% of MFI); Very Low (generally less than 50 percent of MFI), Low (generally between 50-80 percent of MFI), Moderate (generally between 80-120 percent of MFI) and Above Moderate (greater than 120 percent of AMI).

Hollister RHNA (2000-2009)

The 2000-2009 Council of San Benito County Governments Regional Housing Needs Allocation (RHNA) identifies that 9.5% percent of the households in Hollister are classified as extremely low-income, 9.5% percent of households have been determined to be very low-income, 19% percent have been determined to be low income, 23% percent have been determined to be moderate income and 39% percent have been determined to be above moderate income. In establishing the percentage of extremely low income households, following the California HCD recommended methodology, half of the very low income have been estimated to be extremely low income.

Construction needs are derived from the Council of San Benito County Governments population and household growth projections. The income group proportions are then applied toward the construction need, which results in a goal for the number of housing units by income group within the City of Hollister.

For the period 2000-2009, the City of Hollister has been given a construction need of 3,154 new housing units. The specific need by income group is depicted in the following table. Units allocated in the Remaining Need category are determined utilizing the same percentages as provided by the COG in determining the original need.

TABLE A22
HOLLISTER REGIONAL ALLOCATION (2000-2009)

Income Group/Percent of Households	Construction Need	Units Approved	Remaining Need
Extremely Low -9.5%	300	56	244
Very Low - 9.5%	300	57	243
Low - 19%	599	113	486
Moderate - 23%	725	368	357
Above Moderate - 39%	1,230	626	604
Total	3,154	1220	1934
Source: San Benito COG, HCD/City of Hollister			

AVAILABLE RESIDENTIAL ZONED LAND

In addressing the estimated housing needs identified in the Housing Needs Assessment section of this housing element, State law requires that this element contain "An inventory of land suitable for residential development, including vacant sites and sites having potential for redevelopment..." This inventory must identify adequate sites which will be made available through appropriate zoning and development standards and with public services and facilities needed to facilitate and encourage the development of a variety of housing types for households of all income levels.

According to the State Department of Housing and Community Development's "Housing Resources - Q&A," - "The analysis of the relationship of suitable sites to zoning provides a means for determining the realistic number of dwelling units that could actually be constructed on those sites within the current planning period of the housing element. The analysis should also identify the zones the locality believes can accommodate its share of the regional housing needs for all income levels."

The City has demonstrated site suitability, according to HCD guidelines (further discussion below), and has a goal and a vision for a mixture of income levels across zoning districts in the City. City policies have been adopted to support this vision. Based on the needs in the City, and staff's knowledge of the types of projects the City will support, as well as interest from developers in affordable and other mixed use projects, the City has determined that all income categories, including the lower income categories are needed in each of the identified zoning districts. Recent development interest also supports the development of units in both the lower income and higher income categories in the higher density districts. Units across income categories have been identified according to local development history and the vision for the City's future development pattern, including an adaptive reuse program in the downtown areas.

In response to the March 2004, State of California HCD letter for the 2000-2009 Housing Element update, an analysis of the residential development potential of vacant land was performed by the City of Hollister. The inventory of available land has been revised based on the results on the City's analysis to accommodate the number of units identified in Table A22 above. Additional detailed tables are provided in Appendix B that includes supplemental information for zoned parcels in each of the following districts.

- Low Density Residential (LDR)
- Medium Density Residential (MDR)
- High Density Residential (HDR)
- Mixed Use (HDR)
- Mixed Use, West Gateway
- Downtown Commercial Mixed Use (DMU)(HDR), suitable for future adaptive reuse (upper floor residential)

All parcels in each of the six zoning districts are located within the existing Hollister City limits.

WHERE CAN WE PUT NEW HOUSING?

Approved Development Projects

A building moratorium was in effect in the City of Hollister since May, 2002 due to inadequate sewerage capacity. Prior to the imposition of the building moratorium, 1200 new housing units had been approved and/or allocated for development. These projects are expected to be constructed now that the new sewerage treatment plan has been completed in December 2008.

- Vista Meadows. This approved 72-unit very low-income senior housing project is being developed by South County Housing, one of the largest non-profit developers of affordable housing in the region. The 3-acre site is located on Park Street and is zoned R-3S.
- Westside Apartments. This approved project is being developed by Community Services Development Corporation (CSDC), a non-profit affordable housing developer located in Hollister. This project included a combination of approvals: 1) lot consolidation; 2) transfer of 11 allocations for housing from a code enforcement action; 3) demolition/relocation of residents at Palm Court and

- reconstruction of eleven existing rental units on a nearby one-acre site 4) new construction of eleven units. The project is located between on Westside Boulevard, Line Street and San Juan Road that is zoned R-3. The development will serve 22 large low-income families and 11 senior apartments. The project will contain 22 three and four-bedroom units, outdoor common space, and a play area for children. The RDA provided a \$1 million low-interest loan to this project.
- Hillview. South County Housing is developing 25 single-family houses for low-income households on this two-acre site on Buena Vista Road. The development density will be 8 units per acre. Homes are expected to be approximately 1,800 square feet with lots sizes ranging from 4,700 square feet to 7,500 square feet. This property is zoned R-1/L -PZ.
- Estancia Senior Village. Warmington homes is developing a planned unit development (PUD) housing project targeted to the senior market on a 24.40-acre site zoned R-3PD. The project will contain 166 market rate units approximately 1,544-to 2,156 square feet in size. Average lot size would be 4,321 square feet at a density of 6.8 units per acre market-rate housing affordable to moderate income households.
- West of Fairview. Award Homes is developing 677 housing units on 125 acres zoned West Fairview Road District (RWF) in the West of Fairview Specific Plan Area. There will be 517 single-family dwelling units, 100 apartment units with 50 multifamily rental units designated very low-income, 50 multifamily units designated as low-income units and 30 garden homes will be reserved for moderate-income households.
- Intravia Duplex. A duplex has been approved on San Benito Street in the Central Residential (RD) District. The two market-rate units will be affordable to moderate-income households.
- Brigantino Unit 3. An approved 14 lots subdivision for market rate homes with an average density of 6.5 units per acre
- Market Rate Lots. There are 232 market rate dwelling units that can be constructed from the following developments: Anderson Homes - 6; Walnut Park 13 - 20; Eden West - 55; Hillock Ranch - 41; La Baig -45, Las Brisas Phases 7 & 8 - 17; Palmtag Subdivision - 2; Walnut Park Units 8A and 8B - 32, Valley View Phases 3 &6 - 14.

Additional Housing Capacity

The Hollister city Council, on December 15, 2008 approved the revised Zoning Ordinance (Ordinance 1038) and accompanying map. By rezoning sites in accordance with the General Plan residential densities and the default densities prescribed by the California Department of Housing and Community Development, the City has satisfied the requirement for zoned sites to meet the New Construction need in Table A22.

For the 2000-2008 period, the City is not relying on non-vacant (mixed use reuse) sites, nor is the City relying on areas in the Sphere of Influence. Therefore, no schedule of annexations or other programs specific to annexation are required. Appendix B includes inventories of vacant residential and the new mixed use land use designation based on General Plan Land Use Map 2 and the City of Hollister zoning map. . In addition to the 1,200 dwelling units that have been developed as lots and/or approved for development or with allocations, there is capacity for over 2320 housing units in the city limits for a combined capacity of 3,520 units. Table A23 below summarizes the inventory of zoned residential sites and residential development capacity by zoning district. The identified sites are available for immediate development from a zoning and development standpoint. Further, the Cease and Desist order issued by the Regional Water Quality Control Board was lifted on December 5, 2008, meaning the properties are no longer constrained by a lack of sewer treatment capacity. The majority of the developable land would be at sites with densities greater than eight units per acre. The ability to develop lands with higher development densities will fulfill Housing Element goals and programs to stimulate construction of a variety of housing types and more multi-family housing for all segments of the community.

Subsequent to adoption of the new Zoning Ordinance and map (rezoned sites), the revised RHNA Sites Inventory (in Appendix B, Table B-2) utilizes the minimum densities within each Zoning district to calculate "realistic" capacities for new units, with the exception of the low density district which is based on historic development densities (see Appendix B, Table B-3).

In accordance with Government Code Section 65583.2 (c)(3)(B), the City is able to demonstrate the suitability of the higher density zones for the development of affordable housing, i.e. housing planned for in the higher density zones is suitable to provide housing in the lower income categories, thereby meeting the "appropriate zoning" test as outlined in the HUD guidelines. Table A23 on the following page summarizes the minimum and maximum densities permitted each residential zoning district.

Table A23:
Additional Housing Capacity Resulting from Lands Zoned for Residential Land Use

Zoning District	Existing Vacant Land Area (Acres)	Calculated "Realistic" Capacity
R1/PZ Low Density/Single Family Performance Overlay Zone (1 to 8 units per acre)	83	415 (1)
R3/PZ Medium Density Residential Performance Overlay Zone (8 to 12 units per acre)	69.15	553
R4/PZ High Density Residential Performance Overlay Zone (12 to 23 units per acre)	44.77	417.6
Neighborhood Mixed Use (250 to 35 units per acre) (Total 17.24 acres)	8.6 (2)	560
West Gateway Mixed Use (20-35 units per acre) (Total 57.8 acres)	28 (2)	215
Downtown Mixed Use (25- 40 units per acre)		
Reuse of Existing Upper level buildings	115	115
Infill of vacant/underutilized lots (3.66 acres)	1.8 (2)	45
Total	236	2320

Notes:

- (1) Capacity based on historic development patterns (See Table B-3 of Appendix B)
- (2) Total vacant acreage reduced by 50% because the zoning provides for a combination of commercial and high density residential land uses.

All parcels in the sites inventory are located within the City limits of Hollister, with utility service and other city services readily available, subject to the extension of service laterals only. With the lifting of the restrictions on the City Wastewater Treatment Plant, the City has adequate sewer capacity to serve identified projects.

The majority of sites in the inventory are vacant and free of encumbrances that would limit the properties' ability to be developed; remaining non-vacant parcels are noted as such. All non-vacant parcels noted in the inventory have been accounted for, with the appropriate consistent methodology applied, either to utilize no unit calculation for the parcels where appropriate (five parcels in the WG-HDR), either for upper floor units in the Downtown Commercial (City survey), or non-vacant parcels in the Mixed Use (HDR) under the control of the Redevelopment Agency (and currently undergoing environmental review for demolition). In accordance with Program HKK, the newly adopted Zoning Ordinance identifies flexible development standards to facilitate development of infill (non-vacant) parcels. The Growth Management rating scale will also serve to incentivize and act as a catalyst to encourage the adaptive reuse of such non-vacant infill parcels.

Low Density and Medium Density Residential: Realistic density calculations for the Low Density (single family 1-6 UPA) and Medium Density (8-16 UPA), zoned land also rely on the lowest allowable density, as per the zoning. However, for Low Density, an adjustment has been made based on the historical development densities of single family projects recently completed in Hollister (see Appendix B, Table B-3). Therefore, the realistic capacity has been calculated based on 5 units per acre for the LDR parcels, rather than the lowest allowable density of 1 unit per acre, as per the zoning. The City fully expects these development trends to continue on future projects because the maximum density has been increased from six units per acre to eight units per acre in the R1 zoning district, and to be a realistic predictor of land development patterns as the City continues to grow.

High Density Residential- HDR. Future development of parcels zoned HDR have been calculated based on the lowest allowable density for a total of 417 units, with one exception, a site on North Street. As a general rule, the City of Hollister has a generally flat topography; however, the North Street site is located on a small hill known as Park Hill. The resulting site slopes act as a constraint to development at this location; therefore, the City has reduced the realistic capacity at this location by approximately 45% percent (the calculation based on 12 units per acre, the minimum density, would otherwise be 270 units). This reduction makes allowance for the

necessary infrastructure and site standards (increased setbacks and reduced heights) due to the slope, and seismic preparedness requirements such as more stringent construction standards leading to higher costs of construction, and site separation requirements, leading to reduced densities.

The High Density Residential Zoning Districts have the lowest cost of construction per unit and would therefore offer some built in market incentives for very low and low-income construction, although the City's development strategy includes moderate and above moderate income units in the high density residential districts as well. In anticipation of their development strategy in the mixed use districts, the City has made further reductions in the calculated capacity of the mixed use zones (equating to 50% of the total acreage). Calculations based strictly on the minimum allowable densities in the mixed use zones would allow for a *greater* number of units; however, the City is mandating a reduction to allow for commercial development in addition to residential development. Calculations are shown in Table B-2 of Appendix B.

Mixed Use

The City established new Mixed Use residential land use designations in the 2005-2023 General Plan. The City adopted a zoning ordinance and accompanying map to implement the new general plan designations. The new mixed use zoning district encourages retail ground floor uses with a mix of office and residential uses on one to two floors above the ground level, commercial and high density residential development. The new mixed use zoning districts of Neighborhood Mixed Use (25-35 units per acre) West Gateway Mixed Use (20-35 units per acre) and Downtown Mixed Use (25-40 units per acre) fall within the Redevelopment Agency Project Area.

The inventory in Appendix B, Table B-2 of mixed use sites bases the residential capacity on two factors. First, it is presumed that at least one half of the vacant lands will be used for commercial land uses. Second, the development from the reduced acreage is based on the 'realistic' capacity. In order to provide further assurance that mixed use districts will yield residential development, the City (HE program H.D.c) requires annual monitoring of development in mixed use areas and for the City to initiate a rezoning to high density residential if commercial development will constrain residential growth.

The newly established mixed use zoning districts implement Housing Element Program H.W Establish mixed-use development standards. The districts include standards to facilitate affordable housing development in mixed-use zones, such as second and third stories on buildings with commercial use at ground level and offices and housing above. The City also adopted a new Growth Management Rating Scale including the following incentives:

- A. Provide flexibility in applying parking standards based on the development's location and the type and size of the housing units, and allow commercial and residential users to "share" parking requirements.
- B. Award height limit bonuses, especially in Downtown.
- C. Allow flexibility in applying development standards (FAR, lot coverage) based on the location, type, and size of the units, and the design of the development.
- D. Encourage housing by allowing the residential component of a mixed use development to be "additive" rather than within the established FAR for that zone.
- E. Allow tandem parking or off-site parking leases.
- F. Review Public Works, Building, Housing and Fire standards to reduce or eliminate impediments to mixed-use development where it is possible and appropriate.

Neighborhood Mixed Use and West Gateway Mixed Use: All parcels zoned Neighborhood Mixed Use and West Gateway Mixed Use districts in the inventory are larger than 3.1 acres; lot consolidation is not necessary to facilitate development of these parcels. The sites are large enough to support projects serving the housing needs of the community, including the ability to serve lower income households, without the need for lot consolidation techniques or parcel assemblage.

Two parcels located on Prospect are under the ownership of the City Redevelopment Agency. Both parcels currently contain existing vacant structures, and are currently going through the environmental review (CEQA) process to permit demolition of the vacant structures, to be done by the Agency. According to City of Hollister staff, the CEQA process is anticipated to be complete by April 2009.

Completion of this process will enable private redevelopment projects to proceed unencumbered. Elements of Program HW (Mixed-Use standards) have since been incorporated into the adopted 2008 Zoning Ordinance, and allow flexible parking standards, variable setbacks, and an allowance for height bonuses. The City expects that such allowances will act as an incentive for the completion of projects in the Mixed Use (HDR) districts.

Downtown Commercial Mixed Use (DMU-HDR): The City's projected unit capacities for sites in the Downtown Commercial Mixed Use (DMU-HDR), specifically for *upper level* residential units, based on the following methodology. The City passed Measure Y in November 2008, exempting the downtown from the Measure U (Growth Management) housing allocation requirements. The City's identified capacity of second floor units is based on a voluntary first hand inventory of upper floors in the downtown, done by the City in the summer of 2008 and other an estimate from other unsurveyed buildings with potential for re-use. The survey was based on data from the Hollister Redevelopment downtown Association, the site visits, and responses from property owners that elected not to participate with the survey, assessor data and staff knowledge...

There is also additional housing capacity some vacant lots and partially developed properties in the Measure Y exemption area. Implementation of the newly adopted Mixed Use standards in Hollister will provide incentives for the completion of projects in the Downtown Commercial Mixed Use (DMU-HDR) district, carrying out the City's vision for the downtown core. Application of the appropriate historical building codes will further ease the development of properties that would otherwise face higher costs due to stricter code requirements.

For those properties where owners responded to the City's request for information, (shaded rows of Table C-1 of Appendix B) the survey determined that in the immediate near term, there is a capacity for 115 units subject only to ministerial building permits for re-use of upper floors, i.e. no discretionary review. These units are available for immediate development. Further capacity exists for an additional 46 units from former or less active car lots or parking areas on private property, utilizing a consistent projected unit size of 800 to 1000 square foot studios, (see Exhibits C-1 and C-2, site specific inventory sheets) demonstrating the City's efforts in determining upper floor spaces and capacity.

As future reserve (not included in this inventory, but shown in the table with an equivalent of "0" units), two remaining cannery location parcels in the Downtown Commercial Mixed Use (DMU-HDR) sub-table, the City proposed to use a calculated realistic capacity based on the minimum allowable density in the district. Going forward, the City will continue to mandate that 50% of the acreage be utilized for residential.

Density Bonus:

The City's new Zoning Ordinance, along with the Density Bonus program will serve to incentivize development of the HDR parcels. Several parcels in the High Density (HDR) district are 1 acre or smaller; therefore, the City encourages lot consolidation to permit such development to advance. The City's support of the consolidation of small lots into larger parcels is evidenced by a recent demolish and rebuild project, the Westside Apartments. By consolidating several smaller lots into one, the project utilized a density transfer, gaining 11 additional units. A direct result of one of the City's goals, the new Zoning Ordinance supports interconnections between properties, resulting in increased projects involving combined lots. Flexible zoning standards such as stepped back second floors, reduced setbacks, and parking placed behind the building also provide additional opportunities to develop such projects. All parcels in the HDR district are eligible to participate in the City's Density Bonus Program. The City's Growth Management allocation program awards points for projects that provide a density mix with housing for lower income groups, including extremely low income households, acting to further incentive and encourage higher density projects, including projects involving lot consolidation.

Annexation:

Although the City of Hollister has ample residentially zoned land within the city limits to meet the 2000-2008 new construction needs, the City recognize the need to annex land in order to be able to satisfy the demand for housing in the future. The City also desires to eliminate unincorporated islands planned for residential development. The Hollister City Council will consider a Resolution acknowledging the need for future annexations. Further, the City has begun a process to contact property owners within the Sphere of Influence to solicit interest in annexation and to communicate to property owners the City's expectation for growth, unit calculations, etc.

APPENDIX B SITES INVENTORY

Inventory of vacant residential lands in the City limit:

The Hollister City Council repealed and replaced Title 17, the City of Hollister zoning ordinance and map with Ordinance 1038 in December of 2008. The properties were rezoned in accordance with the 2005-2023 City of Hollister General Plan standards. Table B-1 is a summary table that demonstrates that the City of Hollister has satisfied the requirement for zone sites to meet the 2003-2008 Regional Housing need requirement. Table B-2, a five (5) page table, contains acreage totals for each new residential and mixed commercial and residential zoning district with development potential in the City of Hollister. The identified residential sites are available for immediate development from a zoning and development standpoint. Further, the Cease and Desist order issued by the Central Coast Regional Water Quality Control Board was lifted on December 5, 2008, meaning the properties are no longer constrained by a lack of sewer treatment capacity. The table lists detailed parcel information including the assessor parcel number, acreage, the General Plan designation, the Zoning District per Ordinance 1038 (adopted December 2008), properties with constraints (e.g. already developed for a commercial uses in a mixed use district), densities allowed and calculated capacities.

Calculated Development Capacity: The calculated development capacity in Table B-2 is based on the minimum density allowed in the applicable zoning district with three exceptions.

The first exception is for the Low Density Residential R1 zoning district which allows densities ranging from one to eight units per acre. The City of Hollister has not approved one acre or one-half acre subdivisions. Table B-3 summarizes average densities from recently approved subdivisions, which ranged from 3.3 to 6.38 units per acre. Table B-2 applies an average development density of 4.5 dwelling units per acre to vacant lands in the R1 Performance Overlay zoning district.

The second exception is for the Mixed Use zoning districts. These districts were previously in an industrial or commercial zoning district. It is presumed that one-half of the vacant land in the mixed use zoning districts will be developed for commercial uses. Therefore, the calculated realistic capacity is based on the minimum density allowed in the mixed use district and one half of the amount of the vacant land. Housing Element Program H.D a requires that the City of Hollister annually monitor

the ratio of commercial to residential development in each mixed use area. If up to 50% of the vacant land is developed for commercial land uses, the City will be required to rezone vacant residential lands to the R4 High Density Residential Zoning District. The amount of land to be rezoned will be based on a standard to assure construction of a minimum of 1 dwelling units per 5,000 square feet of commercial space that has been developed since 2005.

The third exception is the Downtown Mixed Use zoning district. There is capacity for residential reuse in the upper floors of existing buildings in the historic Downtown Hollister. A voluntary survey of the upper floors of several buildings was conducted in the summer of 2008. Based on the data obtained from the surveyed and unsurveyed buildings with under-utilized upper floors, there is an estimated potential for up to 115 units. There is also additional capacity for an additional 45 units from infill development of vacant or underutilized parcels in this zoning district.

RESOLUTION NO. 2009-184

**A RESOLUTION OF THE CITY COUNCIL OF THE CITY OF HOLLISTER
ADOPTING A MITIGATED NEGATIVE DECLARATION AND MITIGATION
MONITORING PROGRAM FOR GENERAL PLAN AMENDMENT 2009-2**

WHEREAS, under the provisions of Government Code Title 7 Planning and Land Use, Division 1, Chapter 3, Article 10.6 Housing Element, the City of Hollister is required to periodically update the General Plan Housing Element and forward a draft revision of the California Department of Housing and Community Development for review and comment prior to adoption; and

WHEREAS, under the provisions of section 65302 of the Government Code, the City of Hollister is required to concurrently amend the Land Use, Conservation and Safety Elements of its general plan and forward the draft revisions to the California Geological Survey of the Department of Conservation and the Office of Emergency Services for review and comment prior to adoption; and

WHEREAS, an initial study was prepared for the revisions to the Housing Element and the Land Use, Conservation and Safety Elements ("Project") and it was determined that potentially significant impacts from the Project could be reduced to an insignificant level with the incorporation of mitigation measures into the project and that a Mitigated Negative Declaration could be prepared; and

WHEREAS, the programs in the draft Housing Element and amendments related to flood hazards require amendments to Chapter 17, Zoning Code to provide a variety of housing types for all income levels and to comply with provisions in State law; and

WHEREAS, the Mitigated Negative Declaration for General Plan Amendment 2009-2 (Housing Element Update and Amendments Re: Geologic and Flood Hazards) SCH# 2009-051085 was circulated for a 30 day public review period from May 18, 2009 to June 17, 2009 to the State Clearinghouse, the Association of Monterey Bay Area Governments and local agencies; and

WHEREAS, the Planning Commission held a duly noticed public hearing on August 27, 2009, and after considering the Mitigated Negative Declaration and Mitigation Monitoring and Reporting Program, staff reports, and written and oral comments, recommended that the City Council adopt the Mitigated Negative Declaration and Mitigation Monitoring and Reporting Program; and

WHEREAS, the City of Hollister City Council held a duly noticed public hearing on December 7, 2009, to consider the Mitigated Negative Declaration and Mitigation Monitoring and Reporting Program, and to hear and consider written and oral comment; and

WHEREAS, after considering written and oral comment, the City of Hollister City Council deliberated and determined to adopt the Mitigated Negative Declaration; and,

WHEREAS, the Initial Study, the Mitigated Negative Declaration and the Mitigation Monitoring Program are in compliance with the provisions of the California Environmental Quality Act; and,

WHEREAS, pursuant to Section 711.4 of the Fish and Game Code, a de minimis finding cannot be made for the proposed project and the City shall be required to pay Fish and Game fees when the Notice of Determination is filed.

NOW, THEREFORE BE IT RESOLVED THAT THE CITY COUNCIL OF THE CITY OF HOLLISTER adopt the following findings:

1. The Mitigated Negative Declaration for General Plan Amendment 2009-2 evaluates (a) the impacts of amendments to Title 17 Zoning of the Hollister Municipal Code to implement programs H.D (transitional housing), H.E (exemption for accessory second units in multi-family districts, H.H and H.I (reduction in multi-family off-street parking and amendments to mixed use standards), H.I and H.M (mobile home standards) and (b) changes to implement standards to avoid flood hazards. The Council has reviewed and considered the information contained in the Mitigated Negative Declaration, Mitigation Monitoring Program and based on the whole record before the Council, including the initial study and any comments received, that there is no substantial evidence that the Project will have a significant effect on the environment.
2. The Council has reviewed and considered the information contained in the Mitigated Negative Declaration, Mitigation Monitoring Program and based on the whole record before the Council, including the initial study and any comments received, that there is not substantial evidence that the Project will have a significant effect on the environment.
3. The Mitigated Negative Declaration and the Mitigation Monitoring Program comply with the California Environmental Quality Act, the State CEQA Guidelines, and the City of Hollister CEQA process.

4. The proposed mitigated negative declaration reflects the City of Hollister's independent judgment and analysis.
5. The mitigation measures contained in the Mitigation Monitoring Program were agreed to by the City of Hollister and are adequate to reduce the impacts of the project on the physical environment to a less than a significant level.
6. The documents and other materials that constitute the record of proceedings on which the City's determinations are based are located at the City of Hollister Development Services Department, 420 Hill Street, Building A, Hollister, CA 95023.

BE IT FURTHER RESOLVED THAT THE CITY COUNCIL HEREBY adopts the Mitigated Negative Declaration and Mitigation Monitoring Program for General Plan Amendment 2009-2. .

PASSED AND ADOPTED, at a regular meeting of the City of Hollister held this 7th day of December 2009, by the following vote:

AYES: Council Members Sanchez, Valdivia, Friend and Mayor Gomez.

NOES: None.

ABSENT: Council Member Emerson.

Victor Gomez, Mayor
